

WOODWORKING

Rakoll® U 320

CONNECT YOUR BUSINESS WITH A COMPETITIVE EDGE

To bring in-demand products to market, you need a partner with technical expertise that understands today's challenging woodworking industry. You need a partner that can help you deliver the products your customers want and provide the valuable support your business needs. We tailor our product and process innovations to meet our customers' critical needs, such as lowering cost in use, and increasing efficiency and production output. Our problem solving-power can add measurable value to your woodworking product.

Filler-free hot melt wrapping adhesive that was especially developed for decorative finish films made of chipboard, MDF boards and solid wood with decorative finish foils, thin paper foils as well as Alkorcell.

PRODUCT ADVANTAGES

Energy savings	Allows fast line speed in conjunction with high green strength
High heat resistance	In comparison to usual EVA-Hotmelts this product achieves a heat resistance up to 90 °C depending on the used substrates
Good adhesion	Shows good adhesion to a variety of foils used in the market

MARKETS

- Furniture production
- Door production
- Production of decorative profiles

TYPICAL APPLICATIONS

- Profile wrapping
